# Why to Buy Original Cartridge

## Quality, Reliability and Performance

Using Xerox Genuine toner in your Xerox printer will ensure that prints are delivered with consistent quality. Testing conducted by independent printer evaluation laboratories proved Xerox Genuine Toner Supplies are more reliable and deliver up to 27 % higher page yields than third party toner alternatives.

## Control Total Cost of Ownership

Purchasing third party toner can ultimately be more expensive, due to frequent replacement of defective and leaky toner cartridges and lost productivity as a result of device downtime from failures of fusers and imaging units. In comparative cartridge tests on several different printer cartridges, the Buyers Lab Institute (BLI) found that Xerox toner cartridges delivered superior overall page yields, image quality and reliability performance compared to the tested 3rd party brands. Examples of independent laboratory test results have been attached for your reference.
